### **How to be the Gypsy tarot predictor**

I have never thought that I will become a Gypsy tarot predictor, but I am a Gypsy tarot predictor for 30 years now.

It is not more than I can expect, the time pass fast, I am older but not rich.

My life is slow, have money to buy food, give to my parents, must not beg anyone, I have an amount of debts too because I am an owner of a restaurant that I borrowed an amount of money from bank to do my business, so I must work hard. But I don't worry about this, I can manage my debt.

For about Gypsy tarot, there are many gypsy tarot fortune tellers and many kinds of them in Thailand, it's not important that what's kind of Gypsy tarot fortune teller you are, but you must predict the lot match to the real events

that will happen in your customers' life and you must have the moral in doing work too so you will have many customers and be successful in your career.

The quality of fortune teller are intention, future knowing, you must know the matter that will happen and can caught it to present in words to tell your customers, use simple words to tell the lot so the customers will understand easily, make them feel better from their problems not make them be more serious or feel headache. You must,

1. Like read and write
2. Like to meet people
3. Notice every thing
4. Like helping people

So if you would like to be a fortune teller, to predict with you family and friends or to be career, you

~ 14 ~

can be easily, don't difficult like you think, I can guarantee for this
